

Winding machine VEN-L

- Adjustable coiling drum, outside diameter 950mm, core width 0-300mm, core diameter 250-450mm
- Electrical drive (230V)
- Stepless speed control 0-90 r.p.m.
- Entry roller set
- Lengthmeasuring device **VEN-T** with 45 or 65mm cable passage, manually movable for cable positioning, "hold-to-run" handle
- Machine mobile on 4 braked castor wheels Ø 125mm
- Length 2.100mm, width 900mm
- CE- marking

Options winding machine :

Auxiliary parts for reel processing, electronic counter **NE-134** (pre setting length), horizontal unwinding drum on mobile stand connectable to the machine, other network voltage, bigger castor wheels Ø 160mm, automatic cable positioning, ringdrum with retractable front flange, extra axles, auxiliary part for ringdrum

Options length measuring device :

Calibration, mounted cable cutter type **E-2**, extra heavy—extended—removable contraweight, making suitable for steel wire, aid for processing extra thin cable
